🌐 Samukthaa v 🔄 SAMUKTHAA-20

Profile

Motivated Artificial Intelligence and Machine Learning undergraduate seeking an internship opportunity to apply programming, machine learning, and web development skills while gaining industry experience and contributing to real world projects.

Education

Bachelor of Technology, KONGU ENGINEERING COLLEGE Department of Artificial Intelligence and Machine Learning (CGPA - 8.52*)	2024 – Present Perundurai
HSC, SHRI SWAMY MATRIC HIGHER SECONDARY SCHOOL Percentage - 86.5	2023 – 2024 Attur
SSLC, SHRI SWAMY MATRIC HIGHER SECONDARY SCHOOL Percentage - 90.8	2021 – 2022 Attur

Skills

Technical Skills: Web Technologies: HTML, CSS, JavaScript, React.js, Node.js | Backend: Node, Express | ML/DL Frameworks: Keras, TensorFlow, PyTorch, Scikit-learn | Core Subjects: DBMS, Operating Systems, Data Structures | Version Control: Git, GitHub
Programming Language: C | Python | Java | C++(Basics)
Soft Skills: Problem Solving | Analytical Thinking | Collaboration | Communication | Time Management

Projects

Autocomplete Command Tool

Developed a Trie-based tool supporting insert, delete, search, and prefix suggestions with an interactive web interface for real-time visualization and management.

• *Technologies:* C, HTML, CSS, JavaScript

Plant Disease Detection & Crop Advisory

Developed a machine learning-based crop disease detection system that analyzes leaf images and provides real-time crop advisory for improved farming decisions.

• *Technologies:* HTML, CSS, JavaScript, Python, Machine Learning, TensorFlow, OpenCV

AI-Powered Resume Analyzer & Career Assistant

A smart web app that analyzes your resume against job descriptions — providing ATS scores, skill gap analysis, interview prep, and career recommendations powered by AI.

• *Technologies:* Next.js, React, TypeScript, Tailwind CSS, Google Gemini AI

Smart Health Monitoring & AI Assistant Platform

A full-stack personal health monitoring web app that tracks vitals, activity, and provides real-time AI-powered health guidance with multilingual voice support.

• *Technologies:* React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Google Gemini AI, JWT, Web Speech API

Smart Waste Management & Real-Time Monitoring System

A full-stack web application that enables real-time waste tracking, image-based waste reporting, and location mapping to streamline urban waste collection and management.

• *Technologies:* HTML, CSS, JavaScript, React.js, Vite, Node.js, Express.js, MongoDB, JWT, Axios

Student Doubt Solver Platform

An intelligent web platform that helps students instantly resolve academic doubts through AI-driven answers and real-time interaction.

• *Technologies:* Next.js, TypeScript, Tailwind CSS, React.js

Delivery Delay Prediction System

An ML-powered system that predicts shipment delays by analyzing logistics, weather, and route data to optimize delivery timelines.

• *Technologies:* Python, Machine Learning, Pandas, Scikit-learn, Flask, HTML, CSS, JavaScript

Certifications

- Pearson MePro
- Advanced in C, Advanced Data Structures Using Java
- NPTEL-Machine Learning for Earth System Science
- Digital Application Fundamentals (STEM) in NASSCOM

Interests

Machine Learning | Artificial Intelligence | Full Stack Development

Languages

- Tamil
- English
